

South Caucasus Center Quickview

Transition Level / Altitude	See Airport Quickviews
Stations	UBBA_CTR: 133.1 UDDD_CTR: 127.6 UGGG_CTR: 135.125 UBDG_CTR: 135.175 (merged)
VOICE-ATIS available	NO Please set CTR ATIS due to AURORA technical requirements

Rules if more than one CTR is online	
Responsibility UBGD_CTR	Upper Airspace from FL 195 and higher for all sectors.
Responsibility for local sectors	Upper and lower Airspace if UBGD_CTR offline. Lower Airspace only (FL190 and below) if UBGD_CTR is online.
Handoff local sector to UBGD_CTR	Clear aircraft to FL190, handoff not later than FL170
Handoff UBGD_CTR to local sectors	Clear aircraft to FL200, handoff not later than FL220.

Notes	
Transponder	Use SSR feature of AURORA or Squawk Code 1000. Do not handover to another station with Squawk Code 2000.
Letter of Agreement	There are no Letters of Agreement set with neighbour Divisions. Please use common sense.
Flights from UBBB to UBBN	Usually such flights are planned via Iran. XT-Division recommend to keep these flights in our airspace. In case of flightplan is filed over Iran airspace, we recommend a direct to the first point of the STAR.
Directs within XT Division	Directs from one sector to another sector is highly recommended within XT Division. Avoid Directs going temporally outside of our XT Airspace (eg GASBI DCT ROLIN leads the aircraft into Russian airspace. A direct to ROLIN is recommended from BEKIR in this case)
