

UGKO Quickview

Transition Level / Altitude	FL090/7000ft
Stations	UGKO_TWR: 125.5 UGKO_APP: 127.1 UGGG_CTR: 135.125 UGGG_W_CTR: 133.4
VOICE-ATIS available	NO. XT-Division highly recommend to use VOICE-ATIS wherever available

Departures	
Initial climb clearance	7000ft
Squawk Code	Use SSR feature of AURORA or 1000
Handoff TWR to higher Station	When airborne
Handoff APP/DEP to higher Station	Clear aircraft to FL090, handoff not later than 7000ft.

Arrivals	
Descent clearance from CTR and handoff	Descent FL100 handoff to APP not later than FL120.
STARs vs VECTORS	XT-Division highly recommend to use STARs and to use shortcut directs on STARs, however VECTOR service available on Pilots request. ATC must ensure MRVA limitations.
Handoff to TWR	Handoff to TWR when Pilot reports established on approach given by ATC.

Gates and Parking Stands	
International	1 - 9
Domestic	1 - 9
Cargo	1 - 9
General Aviation	1 - 9
VIP and Government	1

Special Notes	
Notams	Respect real life NOTAMS if possible (eg. Runway closures)
Runway	Runway 07 for takeoff and runway 25 for landing recommended up to 10kts tailwind to avoid backtrack.
